

**New EB-PVD erosion, corrosion resistant
GEN III ceramic coatings for compressor parts**

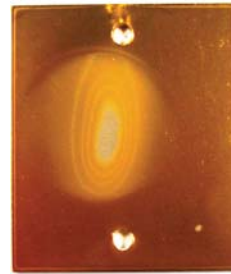

Our new Gen III coating offers over 400 hours of ASTM Salt Fog corrosion resistance and enhanced erosion resistance, five to ten times the life of the current coating. With a glass like surface finish of $6\mu\text{in}$, optimal compressor performance is assured.

Erosion Resistance

650 g to breakthrough

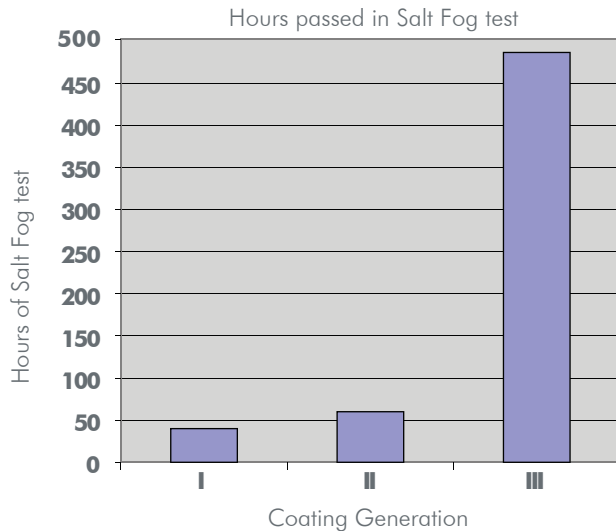

1300 g to breakthrough

7Kg to breakthrough

Corrosion Resistance

40 hrs to pitting

60 hrs to pitting

400 hrs some stains no pitting
