

Weld Quality Starts in the Arc

| I.D. Cladding - Nuclear Application |

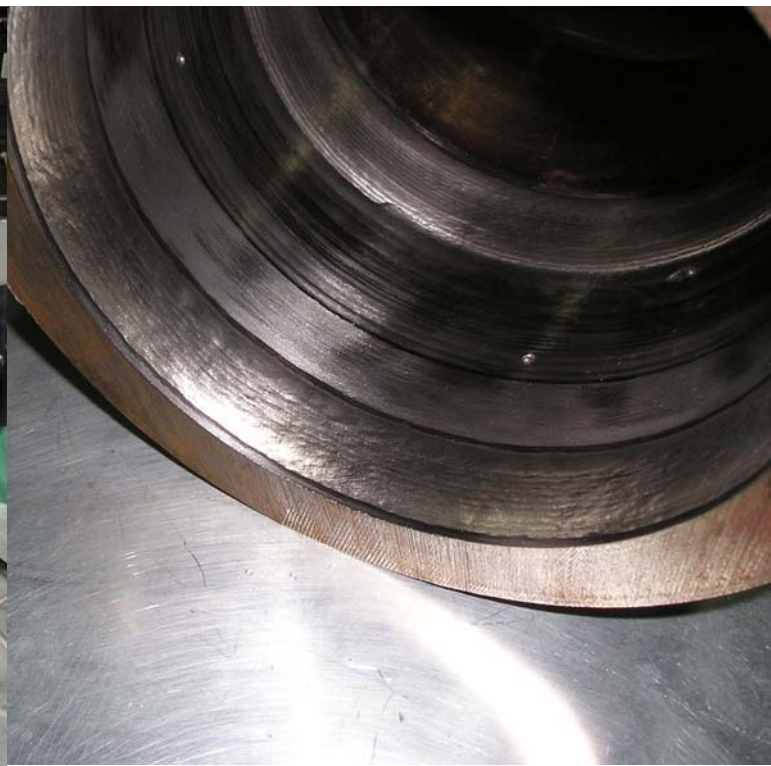

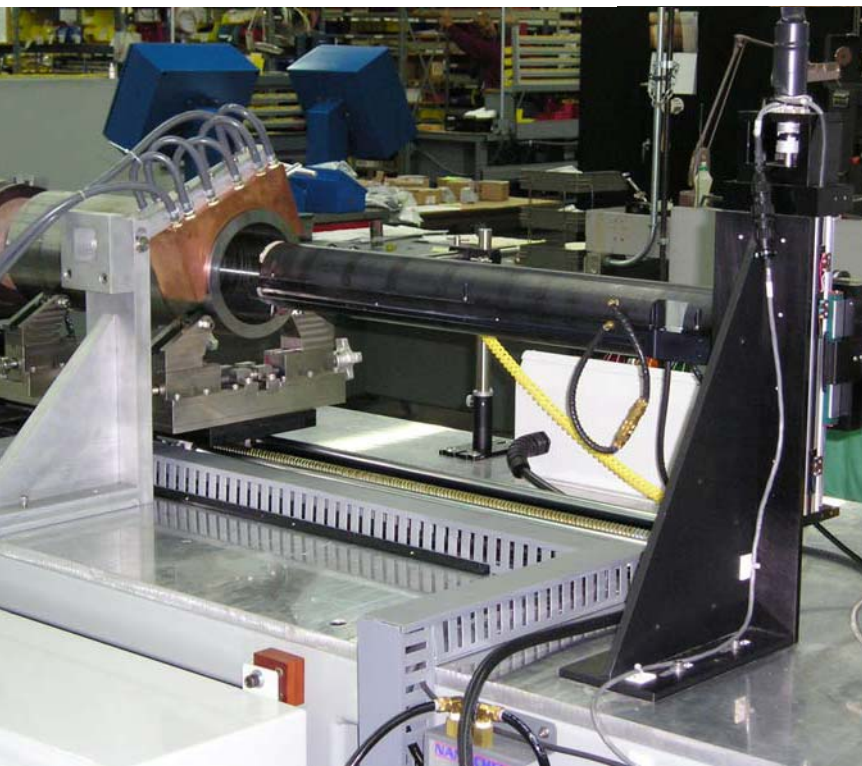

I.D. Cladding Station Nuclear Application

Equipment Used:

- Gold Track V Power Supply
- Remote Video System
- Custom Weld Head Mechanism
- Automatic Voltage Control (AVC)
- Water Cooled Torch/Camera Housing
- GTA - Cold Wire

Provides Continuous Spiral Weld

- No Starts/Stops
- 4-Axis Synchronized Motion (Rotation, Travel, Wire Feed & AVC)
- X-ray & Ultrasonic Quality Nuclear Grade
- Minimal Dillution and Ripple Between Weld Beads
