**Please quote the above Reference Number in the subject line of your email**

Liburdi Turbine Services provides mechanical and metallurgical engineering services specifically tailored for the gas turbine industry. This allows us to perform an independent analysis of problems and, where required, to modify or redesign components. Our expertise lies in the fields of aerodynamics, thermodynamics, heat transfer, stress analysis, metallurgy and mechanical design as they apply to aircraft and land based gas turbines. The company offers firm opportunities for career growth in an attractive but yet challenging technical environment. We are currently seeking a **Dimensional/Visual Inspector** to aid our growth. In this role, the successful candidate will be responsible for supporting manufacturing by performing dimensional inspections of gas turbine components in accordance with specifications.

The role of Dimension/Visual Inspector reports to the Manufacturing Manager. We have one (1) position available on our **2<sup>nd</sup> shift** (Monday to Friday, 3:30pm – 12:00am) and one (1) position available on our **3<sup>rd</sup> shift** (Sunday to Friday, 11:00pm – 7:00am).

### **Typical Duties Include (but are not limited to):**

- Perform inspections for dimensional accuracy of highly diversified or complex parts and assemblies.
- Apply knowledge of inspection practices and procedures.
- Making inspection layouts, testing setup, gauging, and isolating and analyzing defective operating conditions.
- Recommend changes to assist in solving operational and technical difficulties.

### **Key Skill Requirements:**

- Excellent visual accuracy skills
- Strong Inter-personal and inter-departmental communication skills
- Ability to work effectively in a dynamic team environment
- Understanding of engineering drawings and written reports
- Excellent Problem solving skills
- Ability to effectively follow health & safety and quality processes and policies
- Ability to work with minimal supervision
- Very detail-oriented in writing capabilities

### **Key Education Requirements**

- Mechanical Engineering Technician (NDE) Diploma or similar educational background is an asset
- 1 – 2 years of related work experience is required
- Knowledge of non-destructive evaluation (NDE) processes is required

## Liburdi Turbine Services Inc.

---

400 Highway 6 North, Dundas, Ontario, L9H 7K4, Canada

- Familiarity with basic dimensional inspection methods and tools (for example: Vernier calipers, height gauges, dial indicators) is required
- Experience in the quality control field is an asset
- Familiarity with ISO quality system an asset

### ***Application Information:***

This role is a full-time position with initial training on our day shift. Successful candidates are required to pass a standard background check. Interested candidates are encouraged to forward their resume (**please include the reference number in the subject line**) to: [resume@liburdi.com](mailto:resume@liburdi.com)

Liburdi is an equal opportunity employer. We welcome and encourage applications from people with disabilities. Accommodations are available upon request for candidates taking part in all aspects of the selection process.

Only qualified candidates selected for an interview will be contacted.
