Liburdi Automation Inc. is an industry leader, specializing in the design and manufacture of welding systems and precision welding power supplies. We are currently seeking candidates who are qualified for the role of E-Tech (Electrical Field Technician / Technologist) and who are interested in travelling to various client sites.

Typical Duties Include (but are not limited to):

- Troubleshooting, installing, setting up and repairing automated welding equipment
- Maintaining equipment service logs
- Maintaining spare parts lists
- Installing, setting up and commissioning equipment at site at Liburdi's production facilities
- Completing quality testing of robotic welding systems
- Providing equipment maintenance and calibration support for Liburdi fleet of equipment
- Intermittent lifting up to 50lb
- Occasionally working in confined spaces
- Regular North America travel to customer sites (50%)
- Occasional international travel to customer sites
- Working in nuclear facilities and/or oil and gas installations

Key Skill Requirements:

- Experience in Microsoft applications, computer software and hardware
- Strong electrical and mechanical aptitude
- Ability to work independently as well as part of a collaborative team
- Solid customer service skills
- Strong verbal and written communication skills
- Excellent problem solving, analytical and troubleshooting skills
- Organized and project driven
- Strong multi-tasker

Key Education/Experience Requirements:

- College level education is required
- Electrical, Electronic or Electromechanical Technician or Technologist degree is required
- Previous experience travelling in North America is required
- Previous experience travelling Internationally is an asset
- Previous experience self-booking travel arrangements is an asset
- 3-5 years' experience working in a welding equipment manufacturing environment is preferred

Application Information: This role is a permanent full time position. Candidates should be able to obtain a Canadian Passport, travel VISA's and pass various background / site access checks as required by our clients. Candidates should have a valid driver's license. Interested individuals are encouraged to forward their resume to: resume@liburdi.com

Liburdi is an equal opportunity employer. We welcome and encourage applications from people with disabilities. Accommodations are available upon request for candidates taking part in all aspects of the selection process.
